PROFILE

I am a motivated second-year Computer Science student at Loughborough University, currently on target to achieve a 2:1. I am eager to put my skills, education, and enthusiasm to use in a website development environment. I am seeking the opportunity to gain real-world experience in the field and refine my coding abilities. I am excited to learn and grow as a web developer.

EMPLOYMENT/WORK EXPERIENCE

Online Portfolio Website (Personal Project) | 01.07.2023 - Present

> Designed and developed a personal portfolio website to showcase my skills and projects. Utilized HTML, CSS, and JavaScript to create an interactive and visually appealing site. Implemented responsive design principles for ideal viewing on a range of devices.

Team Project Module | 02.10.2023 - Present

> Worked as part of a team to design and develop a website that fell in line with a specification given to us by a client. We had to work closely with the clients, ensuring that we met strict deadlines. We also had to work according to each other's schedules. Additionally, I was given the role of team leader, so it fell on me to set up meetings and assign roles and tasks to people in our team, including checking up with them to see their progress.

KEY SKILLS

Relevant Modules:

- **Introduction to Programming and Databases** | **Year 1** | Mark - **79%:**
    In this module, I learned the idea behind procedural languages, and I gained an understanding of Entity Relationship Analysis, relational database design and use. I also worked on expanding on my Python knowledge.
- **Web Programming** | **Year 1** | Mark - **69%:**
    In this module, I mainly focussed on improving my HTML, CSS, and JavaScript skills. I also learned the uses of PHP and how to use it in relation to database manipulation. Additionally, for my coursework, I had to use PHP, JavaScript, jQuery, and knowledge of AJAX methods to retrieve and send data from and to a database.
- **Software Engineering 1 & 2** | **Year 1** & **2** | Mark [1] - **67%** | Mark [2] - **N/A:**
    In this module, I was introduced to the concepts, principles, and skills for modern software engineering. I learned about the different development process methods and methodologies.
- **Team Projects** | **Year 2** | Mark - **N/A:**
    For this module, I was put into a team of seven people, we were given a specification by a client, and we had to create a website based on it. We were able to ask questions to get a better understanding of what we were making.

Technical Skills:

- Programming Languages: HTML, CSS, JavaScript, Python, Java, PHP
- Web Development: Responsive Design, UI/UX Design, jQuery, Bootstrap
- Database Management: MySQL
- Development Tools: Visual Studio Code, Remote Development using SSH.

EDUCATION

Computer Science BSc (Hons)   Oct 2022 – Present

Loughborough University

A-Levels: Art (A*), Mathematics (A), Computer Science (B)   2020 - 2022

Shireland Collegiate Academy Sixth Form

9 GCSE's grades 9-7   2015-2020

Shireland Collegiate Academy

INTERESTS

- Experimenting with new languages/frameworks.
- Improving my CSS skills by playing 'CSSBattle'.
- Member of my university hall's basketball team.
